

ALL-Tox - Test Code 5044

 Turnaround Time : 12-15 business days

 Specimen Type: Spot Urine

Description

In today's world, exposure to environmental chemicals is almost impossible to avoid. From plastics and pesticides to heavy metals, solvents, and mould-related compounds, these substances can build up over time and put extra stress on your body. The ALL-Tox Profile is a comprehensive urine test that looks at your total toxicant burden, giving a clear picture of what your body has been exposed to.

This test goes beyond simple detection it shows both recent and long-term exposures, helping to highlight hidden contributors to fatigue, digestive issues, brain fog, or other chronic complaints. By mapping metals, pollutants, pesticides, and more, the ALL-Tox Profile helps see patterns and priorities, so interventions can be targeted to what matters most.

The ALL-Tox Profile supports a personalised plan to reduce toxic load and support detoxification safely, helping you uncover environmental factors affecting wellbeing and take steps toward long-term health and vitality.

Whats included?
